EMERGENCY STEAM LINE REPLACEMENT

ADDENDUM TO PLANS AND SPECIFICATIONS

The PLANS and Specifications for this proposed contract (Bid #7461399, for which Bids are currently scheduled to open on 29 April 2013) are revised as follows:

1. Specifications Paragraph 1 SCOPE: is REVISED to ADD two more buildings to the “tie in” requirements: New tie in’s for Craig Lee Hall, Fogarty Life Science and Clarke Science **plus Adams Library and the Greenhouse** shall be connected to the new mains through an above-ground valve station.

2. Specifications Paragraph 10 Below Grade Piping Installation is REVISED to ADD the following requirements:

The Contractor will also make the following inspection and testing of EACH steam and condensate-return pipe/conduit before lowering same onto the bedding in the excavation:

A. VISUALLY examine the whole circumference of the entire length of EACH pipe/conduit segment (the entire exposed surface area).

B. In addition, perform a “THUMP” test, using a rubber mallet or similar tool, around the whole circumference of the entire length of EACH pipe/conduit segment.

C. Report any suspicious visible defects or sound variations (even if minor) to the Ravanco representative, who is to **certify that this particular pipe/conduit segment or system is properly manufactured and insulated, before the contractor installs and interconnects this particular segment of pipe/conduit into our replacement system.**

On Friday, **April 19, 2013** the pit locations will be opened at 9:30 AM for viewing/inspection for those vendors that attended the mandatory pre-bid meeting on April 12, 2013. Please check in at Facilities and Operations.

END OF ADDENDUM
